KOMPAN is the world's leading specialist in playground solutions for all age groups. It all began in the hometown of the Danish fairytale writer H.C. Andersen in 1970, where our founder experienced the joy and attraction offered by his bright and large sculptures. As a result, he created a dedicated and child focused play design company.

KOMPAN believes in making a difference in the lives of children through the creation of unique play environments. Nearly 40 years of innovation and child development research are reflected in every playground we help create. Meanwhile, KOMPAN sets the industry standards for quality and safety, and we have won several Industrial Design Awards for our design.

KOMPAN has been present in China since 1998 and today we hold a leading position among the Playground suppliers in the high-end market. KOMPAN has a track record of prestigious residential, park, school projects and some famous chain stores like KFC across China - all in which we have supplied unique playground solutions for our clients and their children. For more detail, please see the enclosed files.

KOMPAN is ready to assist you with the entire process of designing, purchasing and installing your unique playground. The result will be the best possible playground that matches the given budget and, most importantly, meets the children's wishes and needs.

To achieve the best possible play environment, many aspects have to be considered. KOMPAN's design team will assist in the planning of new or existing play environments by offering the below pre-sales service,

- Expert advice on Site Layout and Design
(including AutoCAD 2D plan, 3D renderings, site plans and comprehensive proposal packages.)
- On-Site Visits
- Comprehensive Presentations

We welcome you to the world of KOMPAN!
